

Centre Interfacultaire Bernoulli

# Advances in the Theory of Control, Signals, and Systems, with Physical Modeling

From January 1st to June 30th, 2009

## Organizers:

Jean Lévine (Ecole Nationale Supérieure des Mines de Paris)  
and Philippe Müllhaupt (EPF, Lausanne)

## Workshops:

« **Electrical and Mechatronical Systems** »

From February 18th to 20th - Room AAC 006

« **Mathematical Tools** »

From April 15th to 17th - Room CM3

« **Chemical and Life Science** »

From June 3rd to 5th - Room CM3

**Special financing available for PhD Students and  
Postdoctoral fellows during the whole period.**
