André Lichnerowicz prize in Poisson geometry

By-laws

Article 1. The André Lichnerowicz prize in Poisson geometry was established in 2008 and named in memory of André Lichnerowicz (1915-1998) whose work was fundamental in establishing Poisson geometry as a branch of mathematics.

Article 2. The Prize is to be awarded every two years at the “International Conference on Poisson Geometry in Mathematics and Physics” for notable contributions to Poisson geometry to researchers who completed their doctorate at most eight years before January 1st of the year of the Conference.

Article 3. The Jury is to be composed of the members of the scientific committee of the Conference, who may invite members of the organizing committee to participate in their deliberation and vote.

Article 4. The Prize is a modest monetary award whose amount is determined by the Jury. The funds and material support are to be provided by the host institution of the Conference.
